Career Objective

Motivated and detail-oriented Entry-Level Java Backend Developer seeking an opportunity to apply strong fundamentals in Core Java, Spring Boot, and RESTful API development. Passionate about building scalable backend applications and continuously improving technical skills.

Technical Skills

Languages: Java
Frontend (Basic): HTML5, CSS3
Frameworks: Spring Boot, Hibernate, JPA
Tools: Git, Eclipse, IntelliJ IDEA, VS Code
Database: MySQL.
Concepts: OOPs, Collections Framework, Multithreading (Basics), Exception Handling

Education

B. Tech (ECE) – Kasi Reddy Narayan Reddy College of Engineering and Research (Aug 2019 – Sept 2023)

Intermediate (MPC) – NRI Junior College, KPHB, (2017 –2019)

SSC - Sai Rama High School, Hafiz pet, (2017)

Projects

Task Tracker Application:

Created a backend application where users can log in and manage their daily tasks like adding, updating, and deleting tasks. Task management system that allows users to securely register, log in and perform curd for tasks with user authentication and RESTful CRUD APIs using Spring Boot, Hibernate, and MySQL.

Online Book Store:

Built backend services for an online book store supporting user authentication, books management and library where user can read purchased books according to order, UPI payment gateway and database s integration using Spring Boot, Hibernate, and MySQL.

Movie Time:

Built backend APIs to manage movie details and categories for movie listing, user authentication and payment secured gateway, payment methods like UPI's, Net banking and link with Spring Boot and MySQL.

Certifications

- Java & Spring Boot Certification – TalentSprint
  (Core Java, OOPs, Collections, Exception Handling, REST APIs, MySQL)
